

# Healthy Shoes

**For work, for walking, for life.**

Magnus White Size 36-46

We are a family owned company with 17 years of experience in professional footwear. Currently, we continue to expand rapidly and are now present on all continents.

**Our mission is to make healthy shoes.**

We provide health in every step our customers take, improving their quality of life through the use of our products. Our shoes combine comfort, functionality and style along with high standards of quality and certifications, positioning us as one of the best options in our sector.

2.5 million pairs of shoes sold.

Presence in 65 countries around the world.

4.000 distribution points.

50.000 pairs of shoes donated.

## Reasons to choose Suecos

We make comfortable shoes suitable for long workdays while caring for design and style. We combine comfort and aesthetics, making us a perfect ally in the workplace.

## Ergonomic Design

They fit perfectly to the foot, providing a superior level of comfort and adapting to every movement to ensure a more comfortable experience.

## Ultra-light

They significantly reduce muscle effort when moving, resulting in a noticeable decrease in fatigue and tiredness during daily and prolonged activities.

## Superior Comfort

With softness and impact cushioning that provide a sense of relief for feet, knees and back.

## Reinforced Material

Reinforced material for better foot protection and increased durability of the footwear.

## Slip Resistant

Traction sole designed to reduce the risk of slipping. Tests show that our footwear meet or exceed the requirements of current regulations.

  
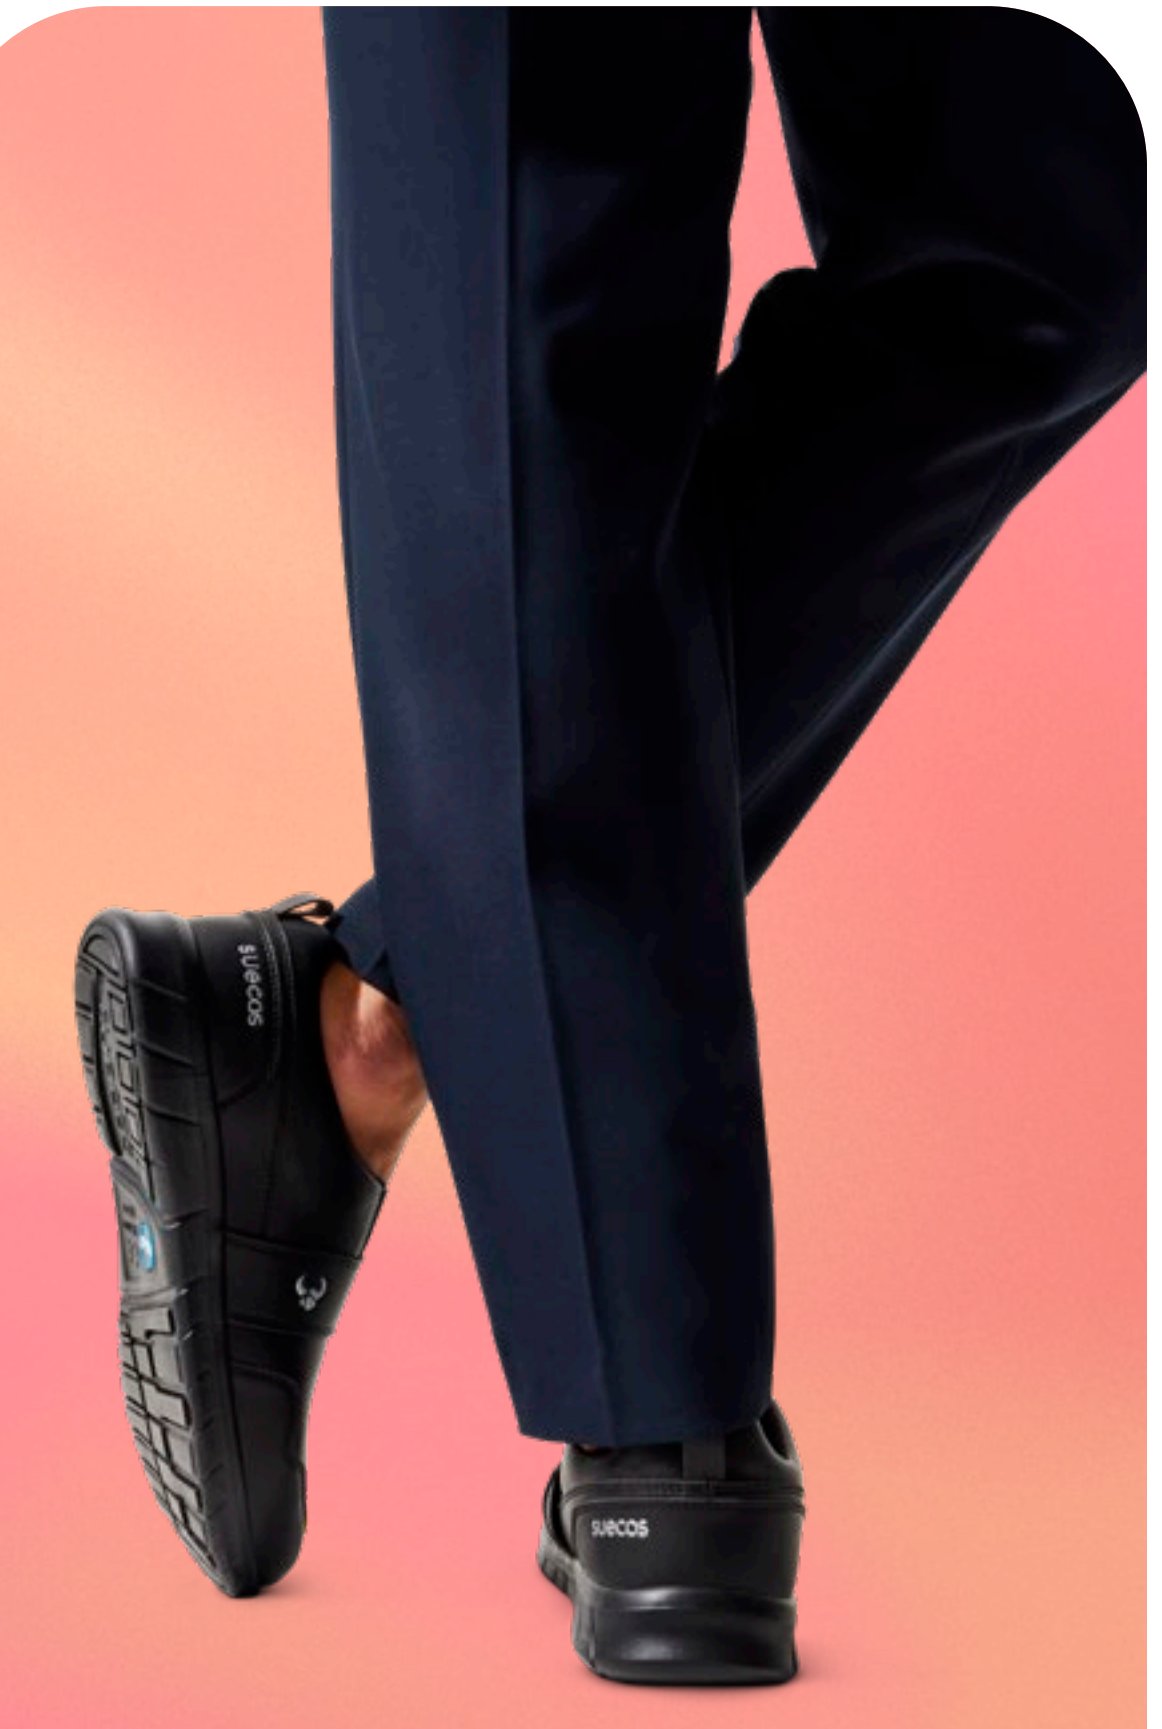

**Clogs**  
Comfortable and secure for long hours of standing and walking.

  
**Sneakers**  
Ultra-light, comfortable and versatile, providing great comfort when walking and standing.

  
**Microfiber**  
Soft, durable, breathable and water-repellent.
